MAKING CUSTOMERS SUCCESSFUL FOR OVER A DECADE

DTG Digital has a mission to help companies with the most diverse range of textile printing equipment become more profitable.

HOW DO WE ACCOMPLISH THIS?

With innovative inkjet engineering solutions systematically designed to meet the needs of our customers.

There are more than 8,000 machines installed around the world, a testament to our expertise and customer confidence in us. As the largest manufacturer of textile printing equipment in our category, we also have a global network of subsidiaries, distribution and service support centres at our disposal. This guarantees local availability, whether it's pre-sales application tests, on-site installation or service requests. Our network also allows us to implement large international customer projects quickly and economically.
